

Compensation Chart

1BadArtist is launching a very handsome compensation package that pays extremely well, compared to any other company that compensates you to move its product. Most companies charge you a fee to get involved or enrolled in their business, in an effort to make them additional money. 1BadArtist doesn't do that, plain & simple. If you refer someone who does business with us, you get paid, period! This program was created by 1BadArtist, so it is truly revolutionary and like no other.

1BadArtist is paying a whopping 20% referral bonus to anyone who generates business for us.

The chart below is an example of how the compensation plan pays out!

Cost of work or project	Your compensation
\$300	\$60
\$1,000	\$200
\$5,000	\$1,000

As you can see, making money is as simply as referring your friends! Consider how many friends you have on Facebook who need a logo, to start a business, or need a portrait created for a loved one. Imagine if ten (10) of your friends spend \$300 each, you would earn a check for \$600. You can't get paid like that anywhere else except at 1BadArtist!
